Emergency exercise happening today at the Comox Valley Airport

The Comox Valley Airport (YQQ) is advising local residents that an emergency exercise will be conducted on airport leased lands throughout the morning. Community partners, including the Comox Fire Department, will be participating in the exercise that is intended to ensure airport employees are prepared to respond in the unlikely event of an emergency. Various emergency scenarios may be simulated and there is a possibility that smoke may be visible around the terminal building. Residents may also hear emergency sirens or notice emergency vehicles travelling to/from the airport throughout the morning.

The Comox Valley Airport thanks members of the public for their patience and support during this important training exercise.
